Mission Statement

JUCM The Journal of Urgent Care Medicine supports the evolution of urgent care medicine by creating content that addresses both the clinical practice of urgent care medicine and the practice management challenges of keeping pace with an ever-changing health-care marketplace. As the Official Publication of the Urgent Care Association of America and the Urgent Care College of Physicians, JUCM seeks to provide a forum for the exchange of ideas regarding the clinical and business best-practices for running an urgent care center.

JUCM The Journal of Urgent Care Medicine (JUCM) makes every effort to select authors who are knowledgeable in their fields. However, *JUCM* does not warrant the expertise of any author in a particular field, nor is it responsible for any statements by such authors. The opinions expressed in the articles and columns are those of the authors, do not imply endorsement of advertised products, and do not necessarily reflect the opinions or recommendations of Braveheart Publishing or the editors and staff of JUCM. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested by authors should not be used by clinicians without evaluation of their patients' conditions and possible contraindications or dangers in use, review of any applicable manufacturer's product information, and comparison with the recommendations of other authorities.

WELCOME

To the 2023/2024 Urgent Care Buyer's Guide™

Congratulations—you've succeeded in leading urgent care through a very challenging couple of years and literally helped countless patients survive the greatest public health threat of our lifetime!

This is no time to rest on our laurels, though. If anything, it's a time to redouble our efforts to ensure the urgent care industry resumes its steady, decades-long ascension.

First we fought just to be noticed. And then for relevance. Now we've demonstrated that urgent care is essential to the health of communities all over the country—not just the literal health of our patients, but also the economic health of those communities and the U.S. healthcare system. We've helped reduce healthcare costs, become employers and tenants of choice in small towns and big cities, and established that our industry represents a dynamic investment opportunity for venture capitalists.

All of this progress would have been impossible without the support of the vendors who supply our EMRs, imaging equipment, billing and coding services, and on and on. If you have it in your urgent care, you got it from someone who had the wherewithal to see the value urgent care brings.

These are not nameless, faceless entities, of course, so we're happy to introduce or reconnect you with them in this edition of the *Urgent Care Buyer's Guide*. You'll find longstanding partners and meet new contacts who are eager to provide what you need to continue caring for patients and supporting your team every day.

Each one of the over 250 vendors inside is an expert in their field. They want to help you. We've organized them into more than 75 categories so you can find the right resource as efficiently as possible.

We want to help you, too, of course; that's why we keep updating the *Urgent Care Buyer's Guide*. If we've succeeded in helping you connect with a vendor who meets your needs, let us—and them—know you found them here!

How to Use This Guide

The *UCBG* is available in multiple formats—print, PDF, or online—to suit your needs at any time. Wherever you are when you need it, you can find it. You can download the PDF version to any or all of your devices by visiting www.jucom.com; the *UCBG* has its own tab on the menu bar. Or you can find everything you on our companion website, www.UrgentCareBuyersGuide.com.

Help Us Get Better in Order to Serve You Better

Like the urgent care industry itself, this guide is always an evolving work in progress. In addition to keeping current with vendors who really *get* the urgent care story, we want to ensure we keep current with your needs. If there are ways we can improve the accessibility of the guide or the range of potential partners you'd like to see, please let me know directly.

Thank you for reading the *Urgent Care Buyer's Guide*—and supporting these vendors who recognize the value and essential nature of urgent care!

Stuart Williams
Publisher, *JUCM*

BETTER DATA. DEEPER INSIGHTS. IMPROVED OUTCOMES.

EXPERITY BUSINESS INTELLIGENCE

You have access to more urgent care data than ever before, but analyzing, interpreting, and funneling all that data to inform your decisions is a challenge.

Experity BI simplifies that process—from teasing out the raw data, to analyzing and aggregating it into visual dashboards that empower owners, administrators, and clinicians with insights that drive action.

Save time using the data you have to achieve better patient and business outcomes with clinical, operational, financial, and custom dashboards

- Drive data-based decision-making
- Easily access metrics that matter for urgent care
- Monitor performance holistically
- Support accountability through transparency
- Add-on module to Experity EMR/PM

www.UrgentCareCME.com
info@UrgentCareCME.com

Core Content in Urgent Care Medicine is a comprehensive training program, teaching the core competencies necessary for clinicians practicing in urgent care. Our ACCME-accredited video program offers 62 hours CME credit for \$750. Additionally, there are modules included for interpreting EKGs and X-Rays included. The curriculum is ideal for physicians, physician assistants, nurse practitioners, or residents who are transitioning into, or practicing in, the urgent care setting. Corporate and group pricing is available.

*THESE TESTS ARE AVAILABLE FOR SALE IN THE US UNDER EMERGENCY USE AUTHORIZATION. These SARS tests have not been cleared or approved by the FDA, but have been authorized by the FDA under an Emergency Use Authorization (EUA) for use by authorized laboratories for the detection of proteins (QuickVue and Sofia) or nucleic acids (Solana) from SARS-CoV-2, not for any other viruses or pathogens. These tests are only authorized for the duration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. § 360bbb-3(b)(1), unless terminated or revoked sooner.

Get to the heart of the matter with Triage®

Automated, Calibrated, Connected Results

QuidelOrtho's Triage Cardiac Health and Toxicology assays, combined with the automated, calibrated, and connected Triage MeterPro®, provide objective, quality solutions that can aid in swift decision-making for critical conditions at the point of care.

The Triage family of products help clinicians quickly manage the treatment of patients with heart failure, acute coronary syndrome, myocardial infarction, thromboembolic events, and drug use.

Triage BNP Test

(Results in ~15 minutes)

Used as an aid in the diagnosis and assessment of severity of congestive heart failure. Used for the risk stratification of patients with acute coronary syndromes and for the risk stratification of patients with heart failure.

Triage Cardiac Panel

(Results in ~20 minutes)

Used as an aid in the diagnosis of myocardial infarction.

Triage D-Dimer Test

(Results in ~20 minutes)

Used as an aid in the assessment and evaluation of patients suspected of having disseminated intravascular coagulation or thromboembolic events, including pulmonary embolism.

Triage TOX Drug Screen, 94600

(Results in ~20 minutes)

Used for the qualitative determination of the presence of drug and/or metabolites in human urine of up to 9 drug assays.

www.morganlens.com
mortan@morganlens.com

Emergency Eye Irrigation (Hands Free)
The Morgan Lens is a medical device that provides the most effective means of ocular (eye) irrigation to treat many eye injuries. Once the lens is inserted, your hands are free. The Morgan Lens provides continuous lavage to the cornea and conjunctiva, floating on the irrigating solution and never physically touching the cornea. The irrigating solution provides instant relief to chemical or thermal burns and removes non-embedded foreign materials in the eye.

Treat the patient at your Urgent Care Center rather than delaying treatment and sending them to the Hospital E.D. Call to place your order.
